## Movie Actresses and Their Hair

Did it ever occur to you that every movie actress you have seen has lovely hair, while the most popular count their curls as their chief beauty? In fact, (this is a secret), many are leading ladies just because of their attractive locks. Inquiry among them discloses the fact that they bring out all the natural beauty of their hair by careful shampooing, not with any soap or make-shift, but with a simple mixture which they make up for themselves by putting a teaspoonful of canthox, (which they get from the druggist), in a cup of hot water and applying this instead of soap. After its use their hair dries rapidly, with uniform color. Dandruff, excess oil and dirt are dissolved and entirely disappear. The hair is so fluffy that it looks much heavier than it is. Its luster and softness is delightful, while the stimulated scalp gains the health which insures hair growth.—Adv.

Indicative of the exceptional conditions which attend the production of our models and styles, and how distinctly exclusive they are, we are prepared to make a complete display of the newest effects. In truth, we have never been so fully ready at this period in the season as now, and while many assortments have been delayed by creative conditions, we are better prepared than usual.

And with a stronger variety, of really superior values, and more temptingly priced than even the reputation already accorded The Louvre. In this we are capable to render exceptional service at the present moment of interested demand.
